# **AAP Continues Creating** Safer Streets for All This 2025

In the Year of the Wood Snake, the Automobile Association Philippines' Advocacy Department pushes forward with its mission to create safer streets for all road users. A more impactful 2025 lies ahead, backed by a stronger collaboration that further reinforces its goals for road safety.

AAP Advocacy, in partnership with the Shell Pilipinas Corporation, will continue its BiyaHero Program that instills the importance of visibility on the road. This partnership has engendered projects over the years that help pedestrians be BiyaHero -- heroes on the road.

As of 2023, the BiyaHero Program has benefited 24 barangays, 36 schools, and more than 16,260 recipients providing essential support and opportu-

## **VOLVO EX30 GETS 5-STARS IN EURO NCAP SAFETY TESTS**

The only fully-electric luxury subcompact SUV that earned this accolade

The fully-electric EX30 scored a maximum Five-Star Rating in the latest round of safety testing conducted by The European New Car Assessment Programme (Euro NCAP), cementing Volvo's longstanding and well-known position as a leader in automotive safety.

Euro NCAP is a leading independent car safety assessment program in Europe that helps customers make informed decisions about the safety performance of cars on the market.

The EX30 is as safe as one would expect from Volvo. With safety systems developed through Volvo's unique safety knowledge gained from research in real-world accidents for over 50 years, it is designed to help protect its driver and passengers in the event of a crash in real life.

It does so through modern restraint technology, as well as a structural design that fulfills Volvo's pioneering in-house safety requirements. These ambitious requirements often exceed official testing requirements and are designed to prepare cars for various real-world scenarios which can sometimes be far more complicated than standardized testing.

protective safety, the EX30 also the driver if activated. ## **AAP Visits Growee Karting Clinic Showdown** and Cammus Philippines Season 2 Race

In pursuit of its commitment to promote the local motorsports scene, the Automobile Association Philippines has formed a partnership with Drift Motor Speedway (DMS).

On February 8, AAP attended the Growee Karting Clinic Showdown & Cammus Philippines Season 2 Race at the flagship branch of DMS in Taytay.

The race consisted of three categories: the Bambino category, the Cadet category, and the Intermediate category. Racers as young as three years old competed in their respective categories, proving their karting prowess.

AAP Chief Executive Officer Mark Desales gave a special speech prior to the race, highlighting that the future of the local motorsport scene looks bright. He added a surprise announcement: that AAP will allot two slots for DMS drivers

A Drift Motor Speedway karting driver stops for a photo op before taking to the track.

## **JOSEPH MICHAEL LIM SETS NEW DRAG RACING RECORD WITH A 7.974-SECOND RUN**

The Automobile Association Philippines (AAP) announced the achievement of the fastest time recorded in the country's drag racing history.

Veteran drag race driver Joseph Michael Lim, steering a Honda Civic AWD, achieved an official time of 7.974 at 186 mph during the 1st Round of the 2025 National Drag Racing Championship – Northern Series held at the Clark International Speedway.

This historic performance represents a remarkable milestone in the sport, making Lim's Honda Civic AWD the fastest car in the Philippines. Lim's prior run in the same round, held the day before he recorded his fastest time, was at 8.072 which he beat in less than 24 hours.

Ahead of Lim's record-breaking runs of 8.072 and 7.974 seconds, the fastest time officially recorded in the National Drag Racing Championship Series was 8.46 seconds, set many years ago.

"The dream was to run 7s. I always talk to my suppliers and mentors abroad about this, and they said it's going to be difficult but not impossible. We just have to know how to do it, know how to tune up the car properly," said Lim. "We were sport, saying, "I believe that this able to prove it. We debunked achievement will inspire more

All-geared-up veteran drag racing driver Joseph Michael Lim beside his winning car.

is impossible to achieve in the Philippines."

AAP Steward Fil Gulfin verified the record-breaking finish, certifying Lim and his team's place in drag racing history.

Lim has been joining AAP-sanctioned racing activities in Bacolod and Cebu since the 2000s. He started drag racing in Manila in 2019 and since then has tirelessly pursued his dream of achieving a 7-second run, culminating in this momentous event.

Lim shared his hopes for the

the common belief that this drivers to aim higher and push beyond their limits. Breaking the 7.9-second barrier is a historic first for the Philippines, and even Thailand has yet to achieve a 7-second record in drag racing. This proves that with determination and the right approach, anything is pos-

> "This is an excellent milestone as this achievement solidifies the country in the world map of drag racing," said Rikki Dy-Liacco, Head of AAP Motorsports. "My huge congratulations to Joseph Michael Lim and his team who have put their heads together to focus on this goal. They should be proud and we join them in celebrating this remarkable feat."

Philippine motor sport icon Mandy Eduque, AAP Trustee and Chairman for Motorsport, conveyed his congratulations: "On behalf of AAP and its Board of Trustees, I would like to congratulate Joseph Michael Lim for his record-breaking run of 7.974 seconds in last weekend's first drag race of the year. His accomplishment is a tribute to his dedication and hard work which is worthy of emulation by all motor sport competitors. Congratulations again, Joseph Michael Lim!"
